

Key Vocabulary	
seasons	There are four seasons each year, autumn, winter, spring and summer .
spring	In spring , the weather starts to get warmer. The leaves begin to grow on the trees and some trees may blossom (have flowers). Plants begin to grow and you may see baby animals like lambs around. The daytimes start to get longer.
summer	In summer , the weather gets hotter. The daytime is long and the nights are short. Summer has the longest days. The trees are full of leaves and there are lots of flowers, bees, butterflies and other insects.
weather	The weather includes the temperature outside, the wind direction and strength, as well as rain, cloud, snow and sun. sunny, rainy, windy, snowy
Daylight daytime	Daylight is when it is light outside. The amount of daylight changes with each season . The length of time between sunrise and sunset is called daytime.
sunrise/sunset	As the earth rotates it moves in and out of the sun's light. As it first appears on the horizon this is the sunrise. It climbs in the day and the sets in the evening at sunset.
