

Dog Blog

On Monday 26th November 2018 6LT got to meet Valley, the dog, who was a Hearing Dog in training.

Valley was there because she was going to be a Hearing Dog for a teacher in a school and would have to be sensible in a classroom environment.

When she came, we as a class were very excited, some were even nervous, but when we saw her, everyone liked her. We had a normal lesson and all went well. After that, we got to pet her and we all had a go in the end.

We were very pleased to be able to help Valley in her training. She will be a great help to her new owner.
